

第14話 奇妙な隣人

Poor thing...

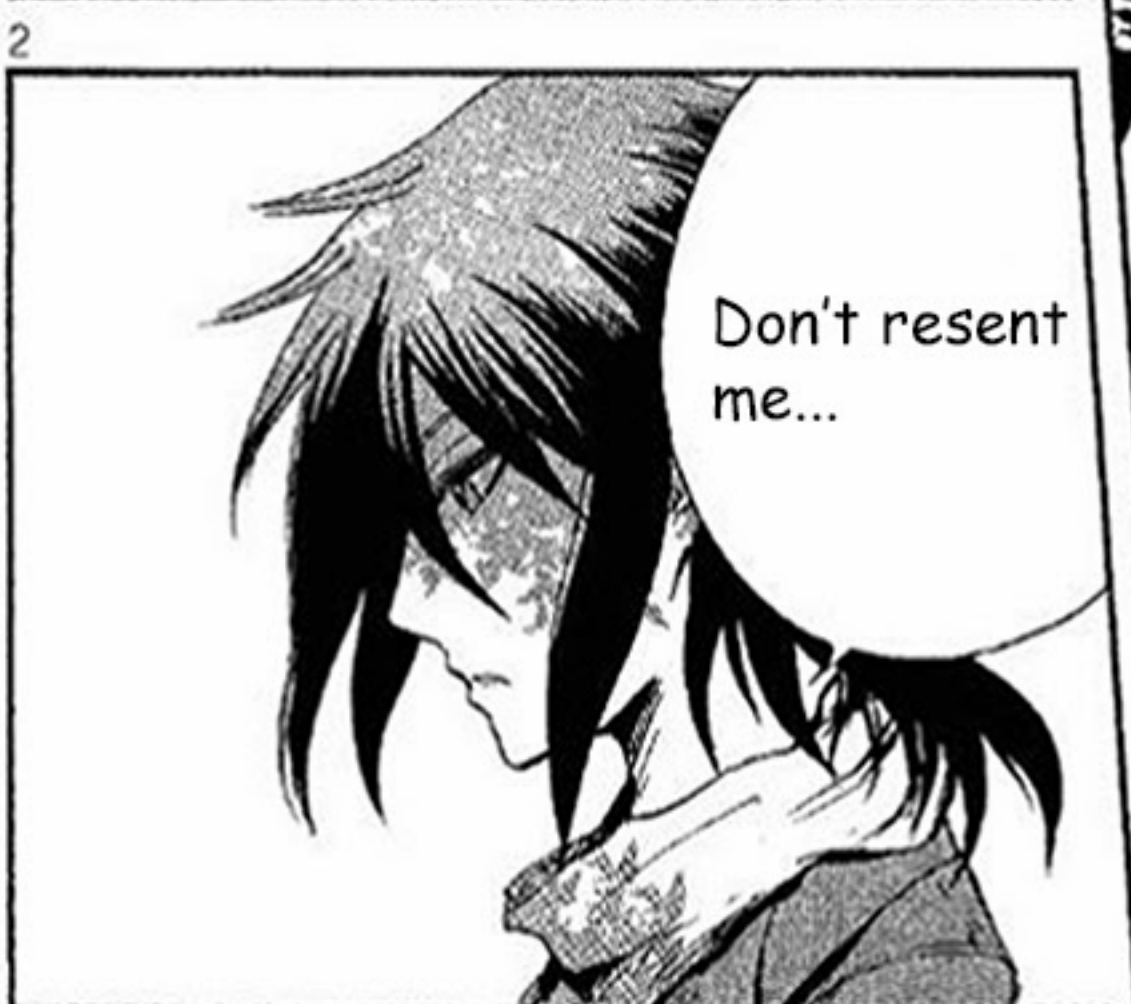

Impres-
sive..

An infected
person will
surely die even
after a long
time...

for you to
bear it this
long, it's not
your first time
is it?

You finally
fell to the
virus

Don't resent
me...

Well, I think
it's good to
try your
best

Ugh..

Gu..

ugh..

Because
this is

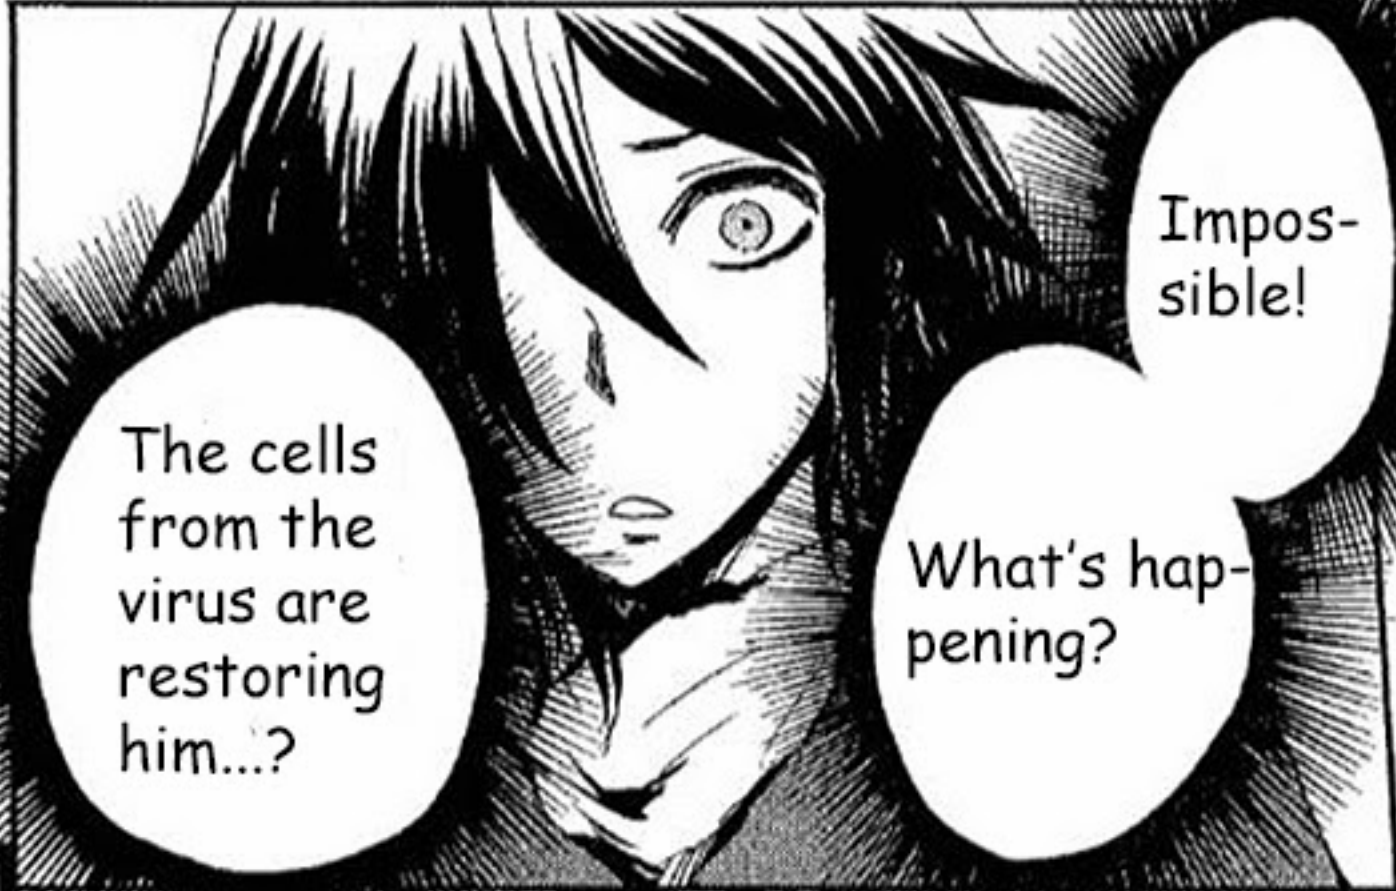

The road you
chose after all...

Ku..

Ah-...

.....
!

The cells
from the
virus are
restoring
him...?

Impos-
sible!

What's hap-
pening?

Hah...

....ahh

Hah...

...hah-

This phenome-
non, even I
don't know
what's happen-
ing..!

How many days do you think have passed since then?

You haven't had any medicine since the 27th

effect.

is..

The medicine's..

6

Why, you say?

Hey wait a sec, how do you know about that?

Because I've always been watching you...

The medicine's effects have already stopped...

through the red butterflies

Using these little guys....

I've stocked up on all kinds of information

These butterflies, one by one...

they make up my cells

Don't tell me

This person is infected too?

when I sensed an infected person over here I just had to stop by for you

Well,

because I react to the pupa virus

7

Hm? Nope,

I'm not infected

Mostly...

So,

You're infected too?

Your guys' love affair,

and your meal-times, I've seen
Ahit all
ha ha

Gah!

**But I'm not
human either**

8

Still, I didn't even see the cells transform-

Hn..

もいもい

Hah...

Nggh..

Gah!
...

ゴキウ
ヤッ

Here you go, eat this...

Oh yeah, your regeneration ability is still down huh?

I'll lend you some of my meat

ゴキウ
ゴキウ

Agghh...

Oh-

ゴキウ
ゴキウ

Ah

hh

.....

10

Half-naked

11

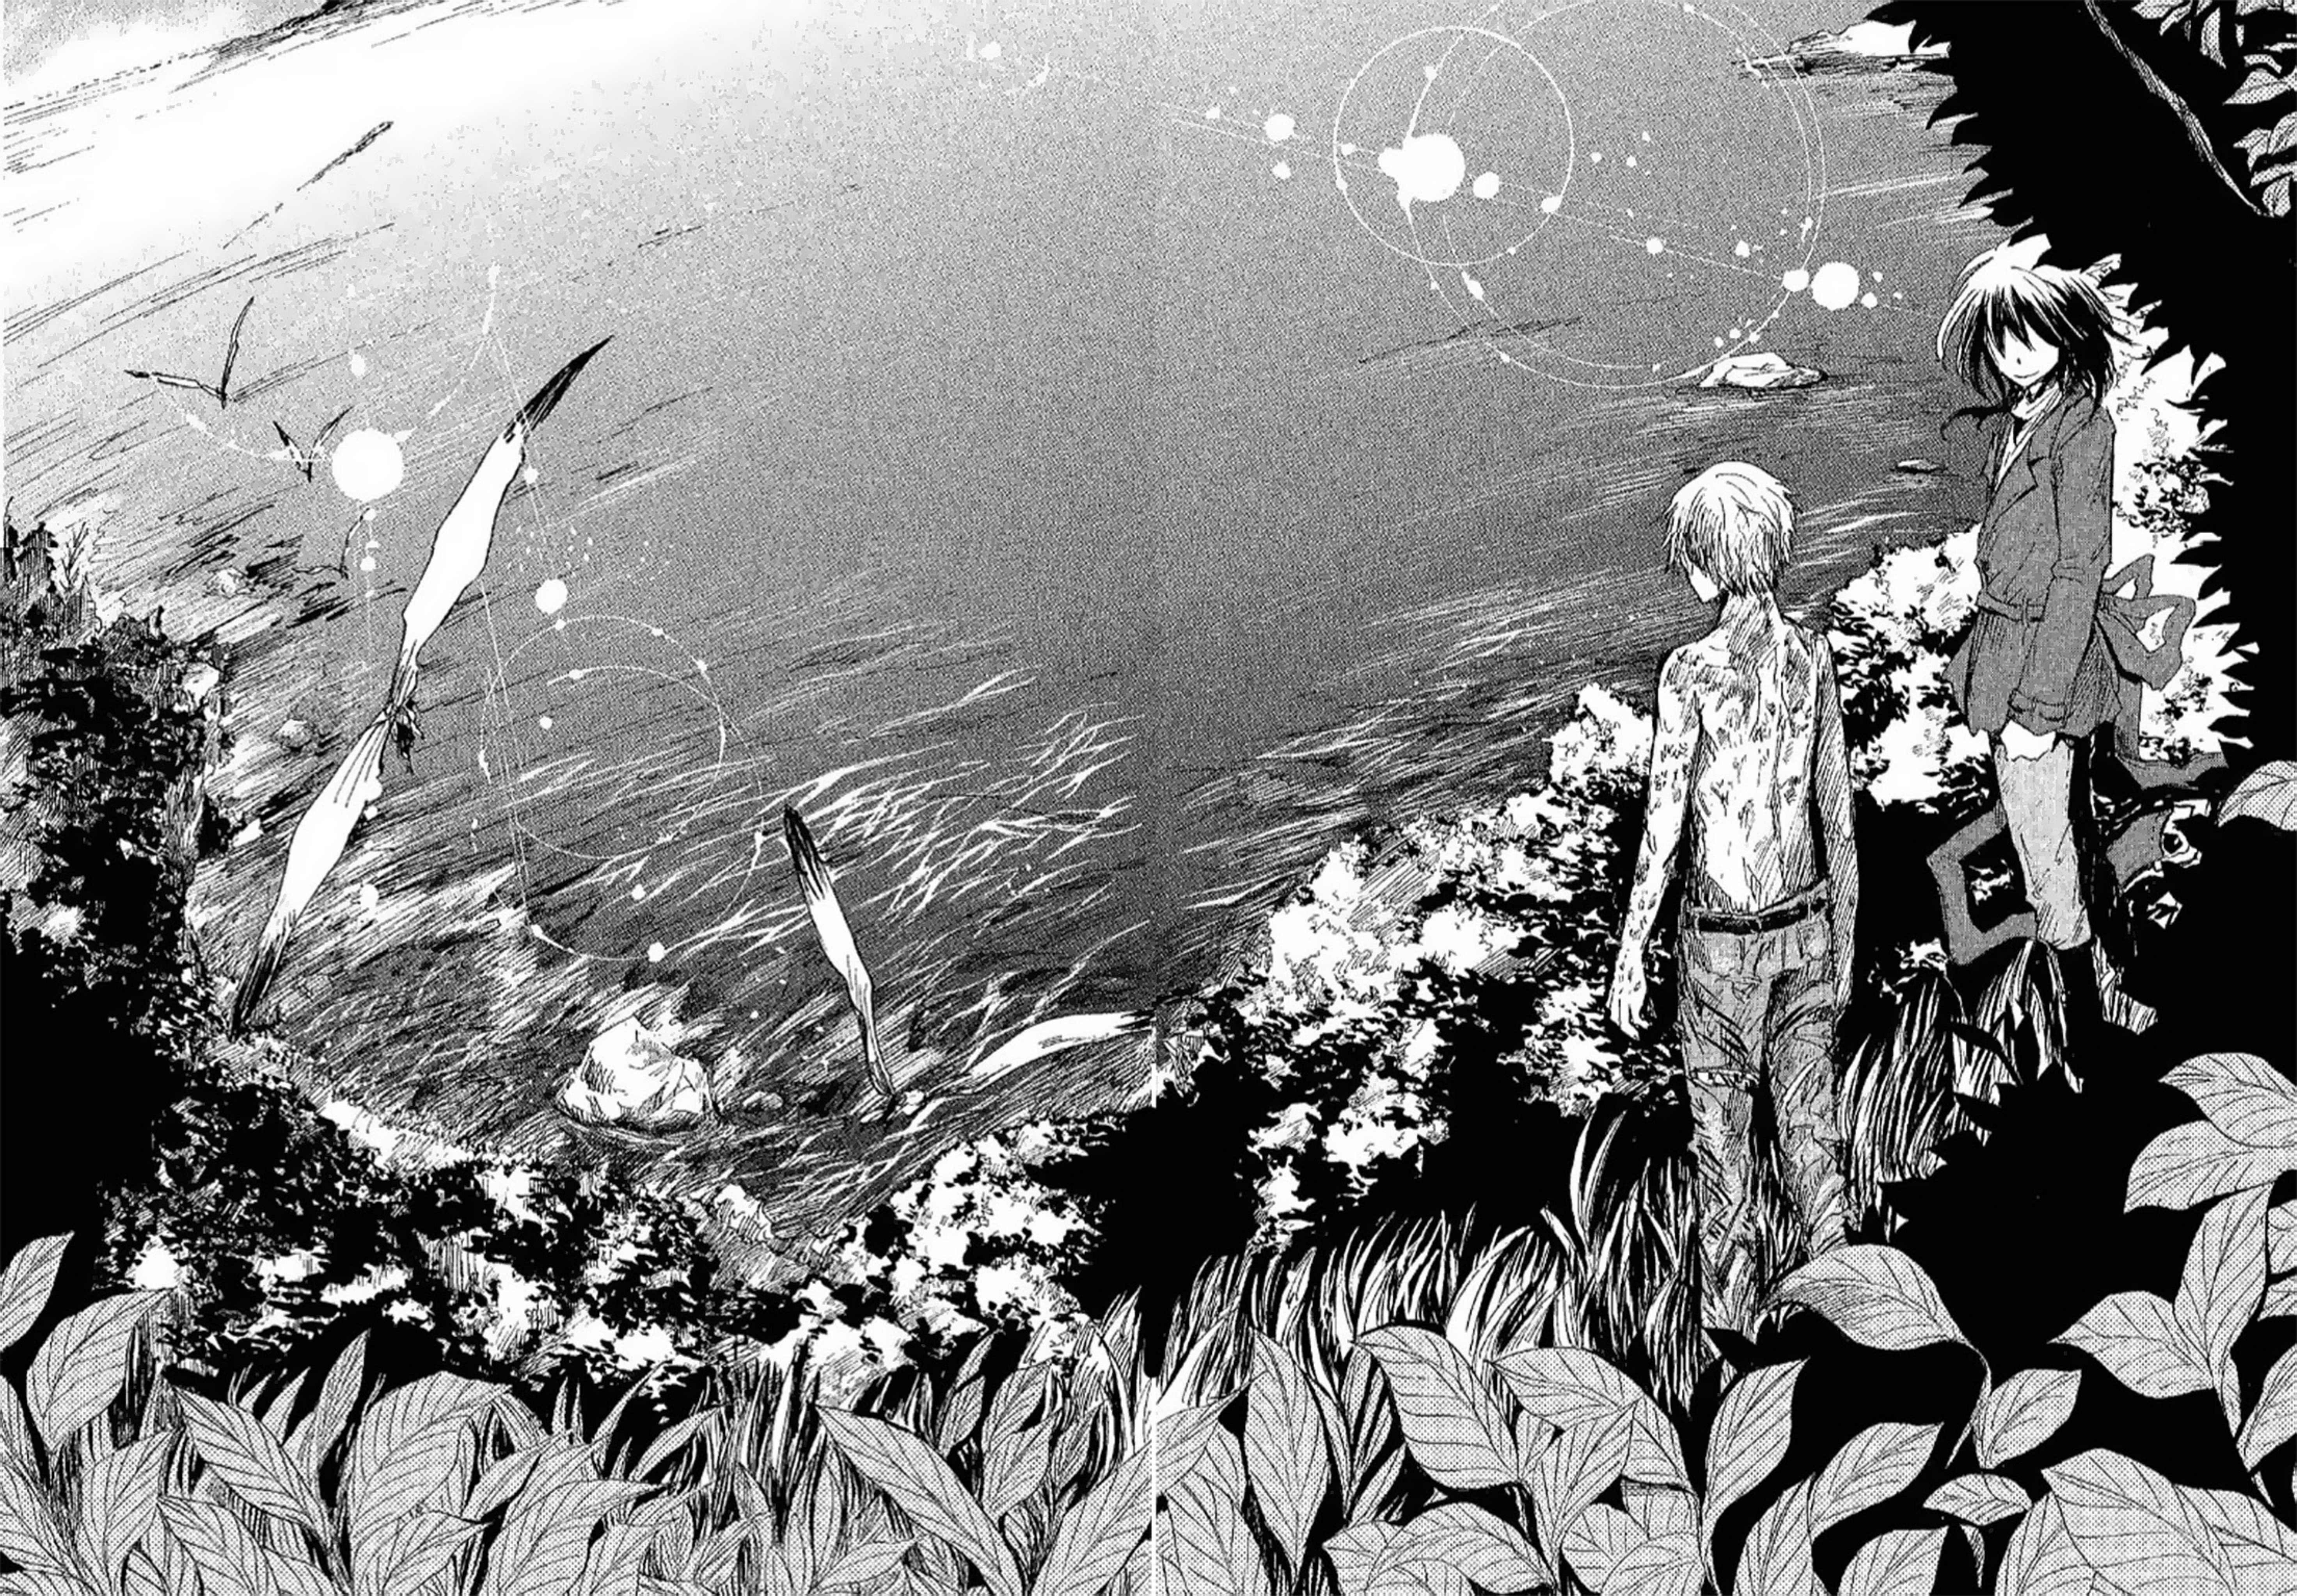

Hey,
Yuu...

just what
is....

this place

It's name is
Monaki Island

You can see his
works all
throughout the
island, so you
should take a
look

Because this is
my secret
place....
it's not
marked on
any map

14

A painter
bought this to
use as an art
studio

Though
nobody
lives here
anymore...

If God and
Buddha sing..

They shall de-
stroy the
southeastern
demons...

Search for
Amitabha's
profit

Don't stray
from the path
of the Gods

This island is also called Onigashima by the local fishermen...

It seems he liked that passage very much...

*TN: Onigashima means demon island

What's this feeling.....

*Oniga.. shima...

That was a passage the he liked...

Edogawa Ranpo's "Demon's of The Island"

Eh...?

15

Moreover this guy

...

Well, of course this Island doesn't have any demons...

Ah, but,

that's right, now....

This is really frustrating

Something is weird...

This guy too...

Ever since I woke up here my skin's been tingling

She was here

16

Guu
...

Uu
...

Gu
...

Gh
...

Gu
...

This is the old Imari house

The owner of this island was Imari Genjuurou

To think there was such a big mansion in these mountains..

Just how big is this place?

Woah
|

It's worth 2 million

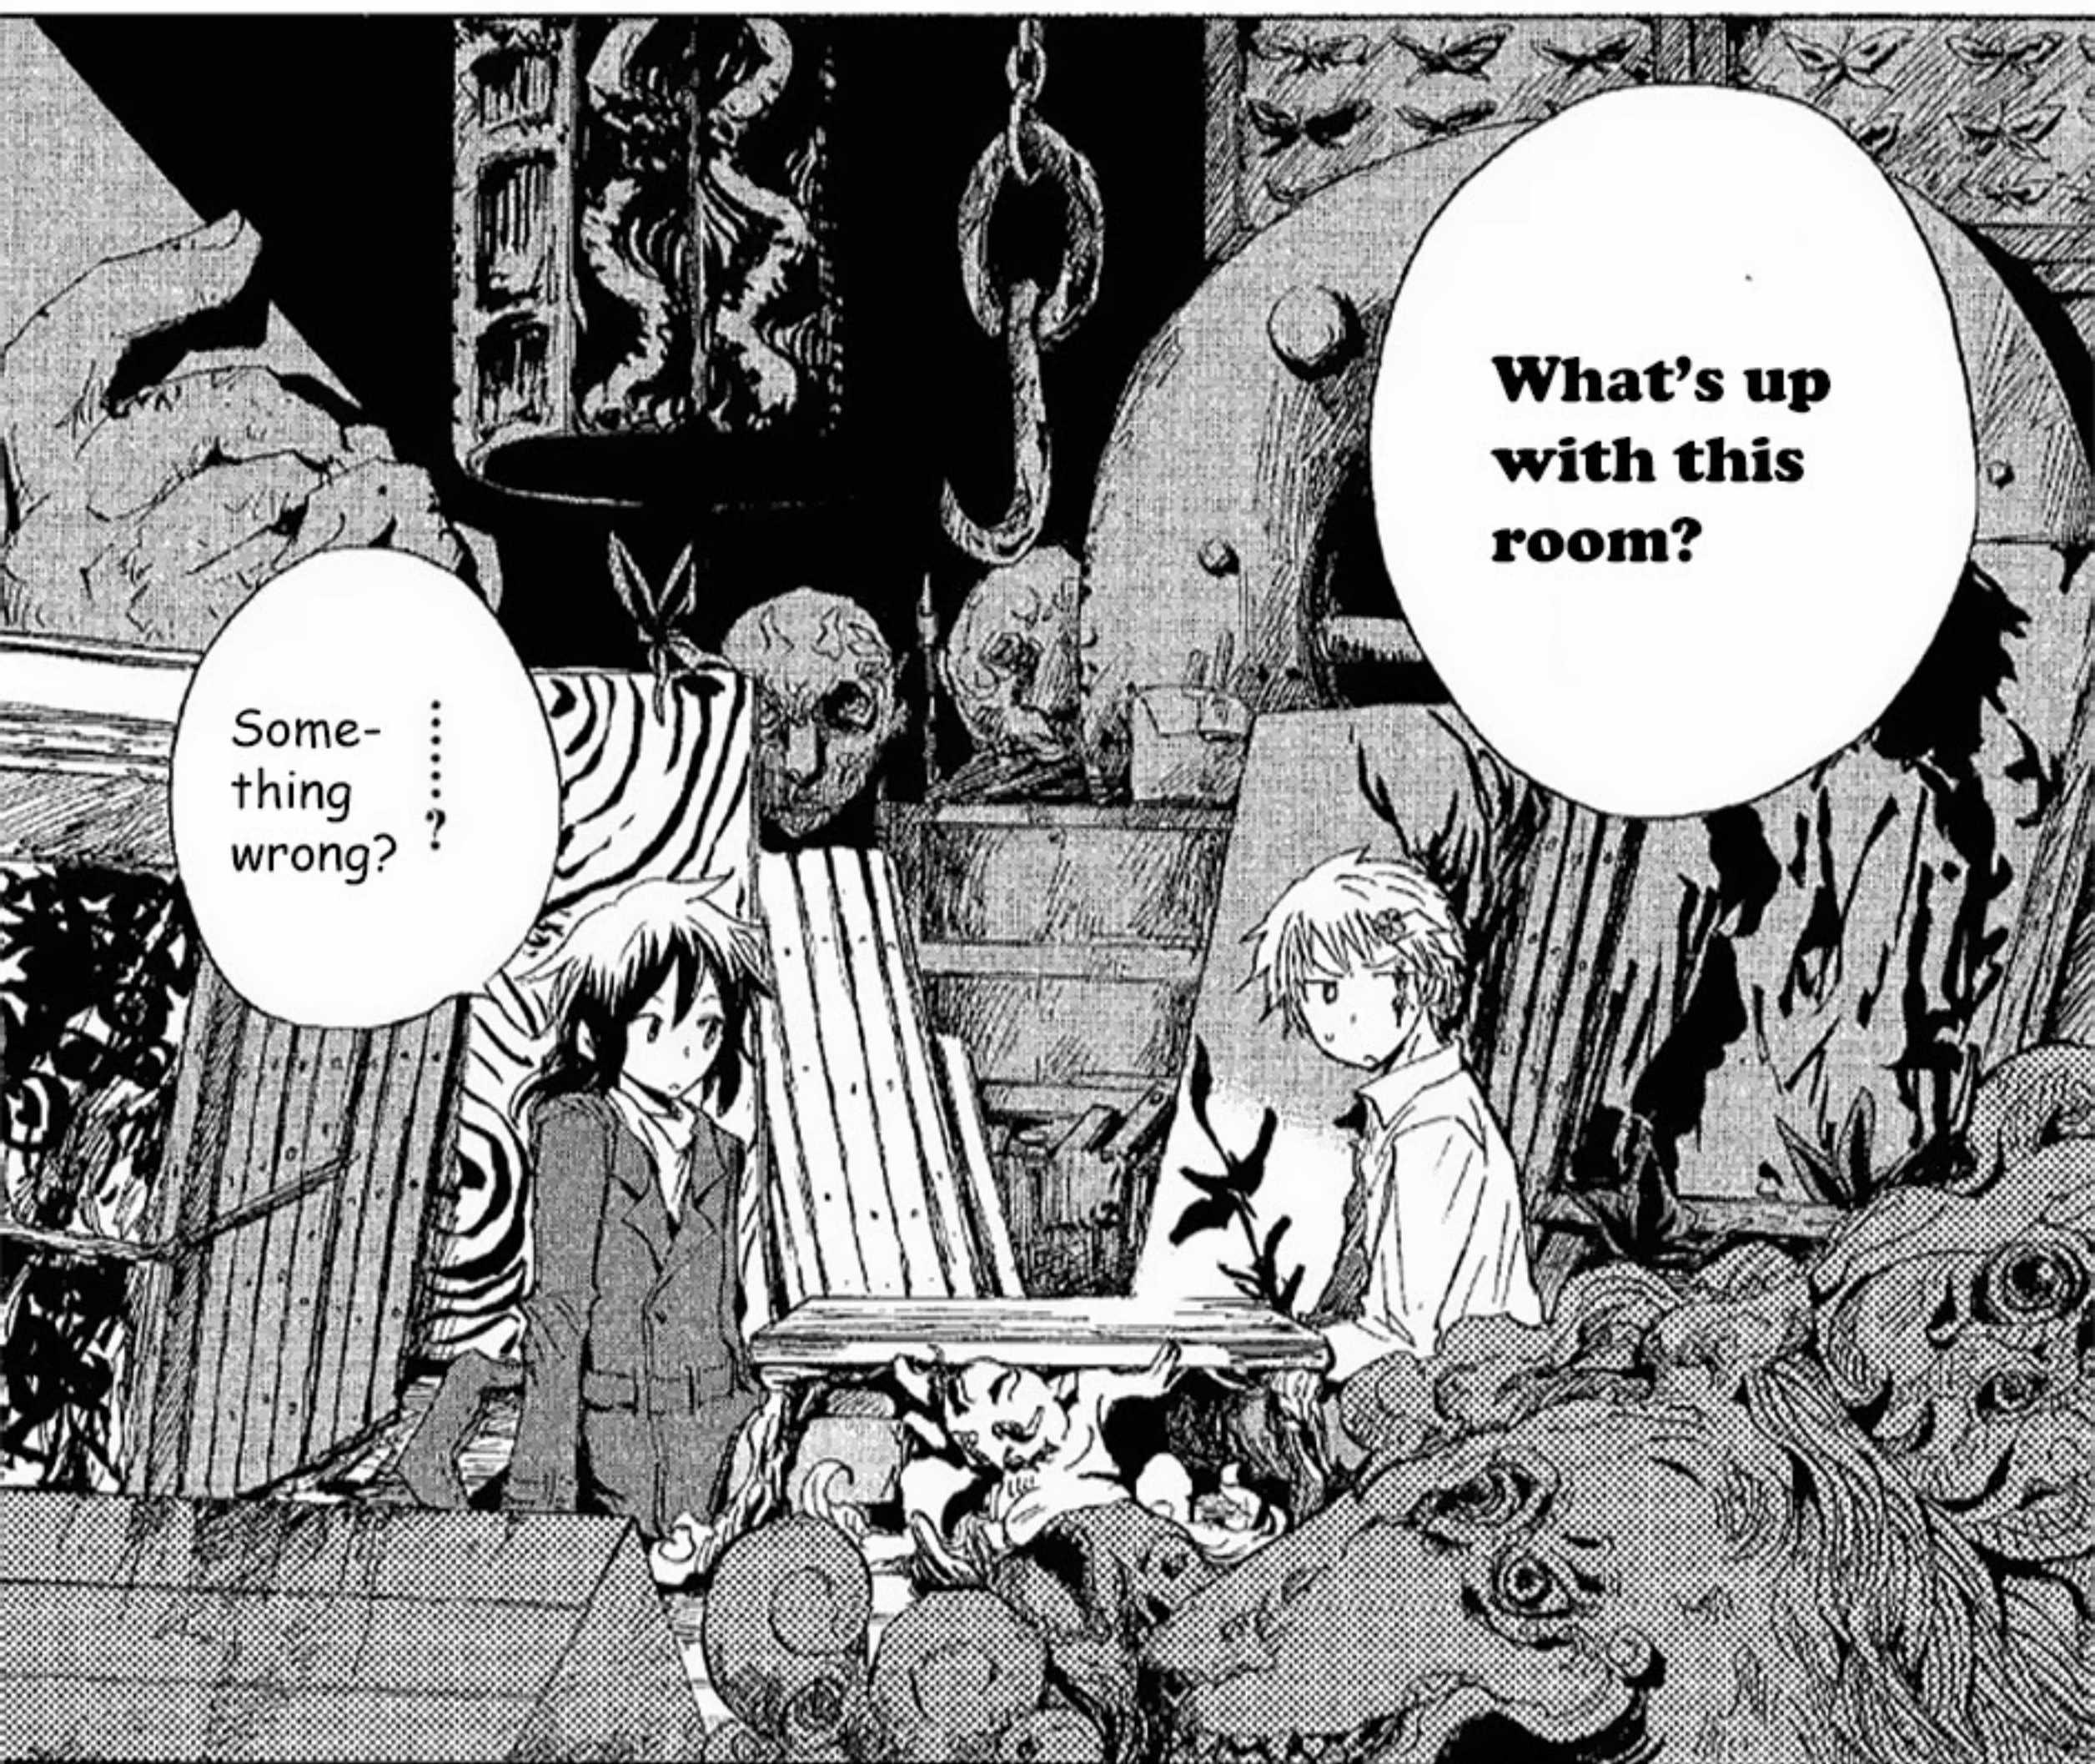

Bad taste...

Seriously?

How do I say this?

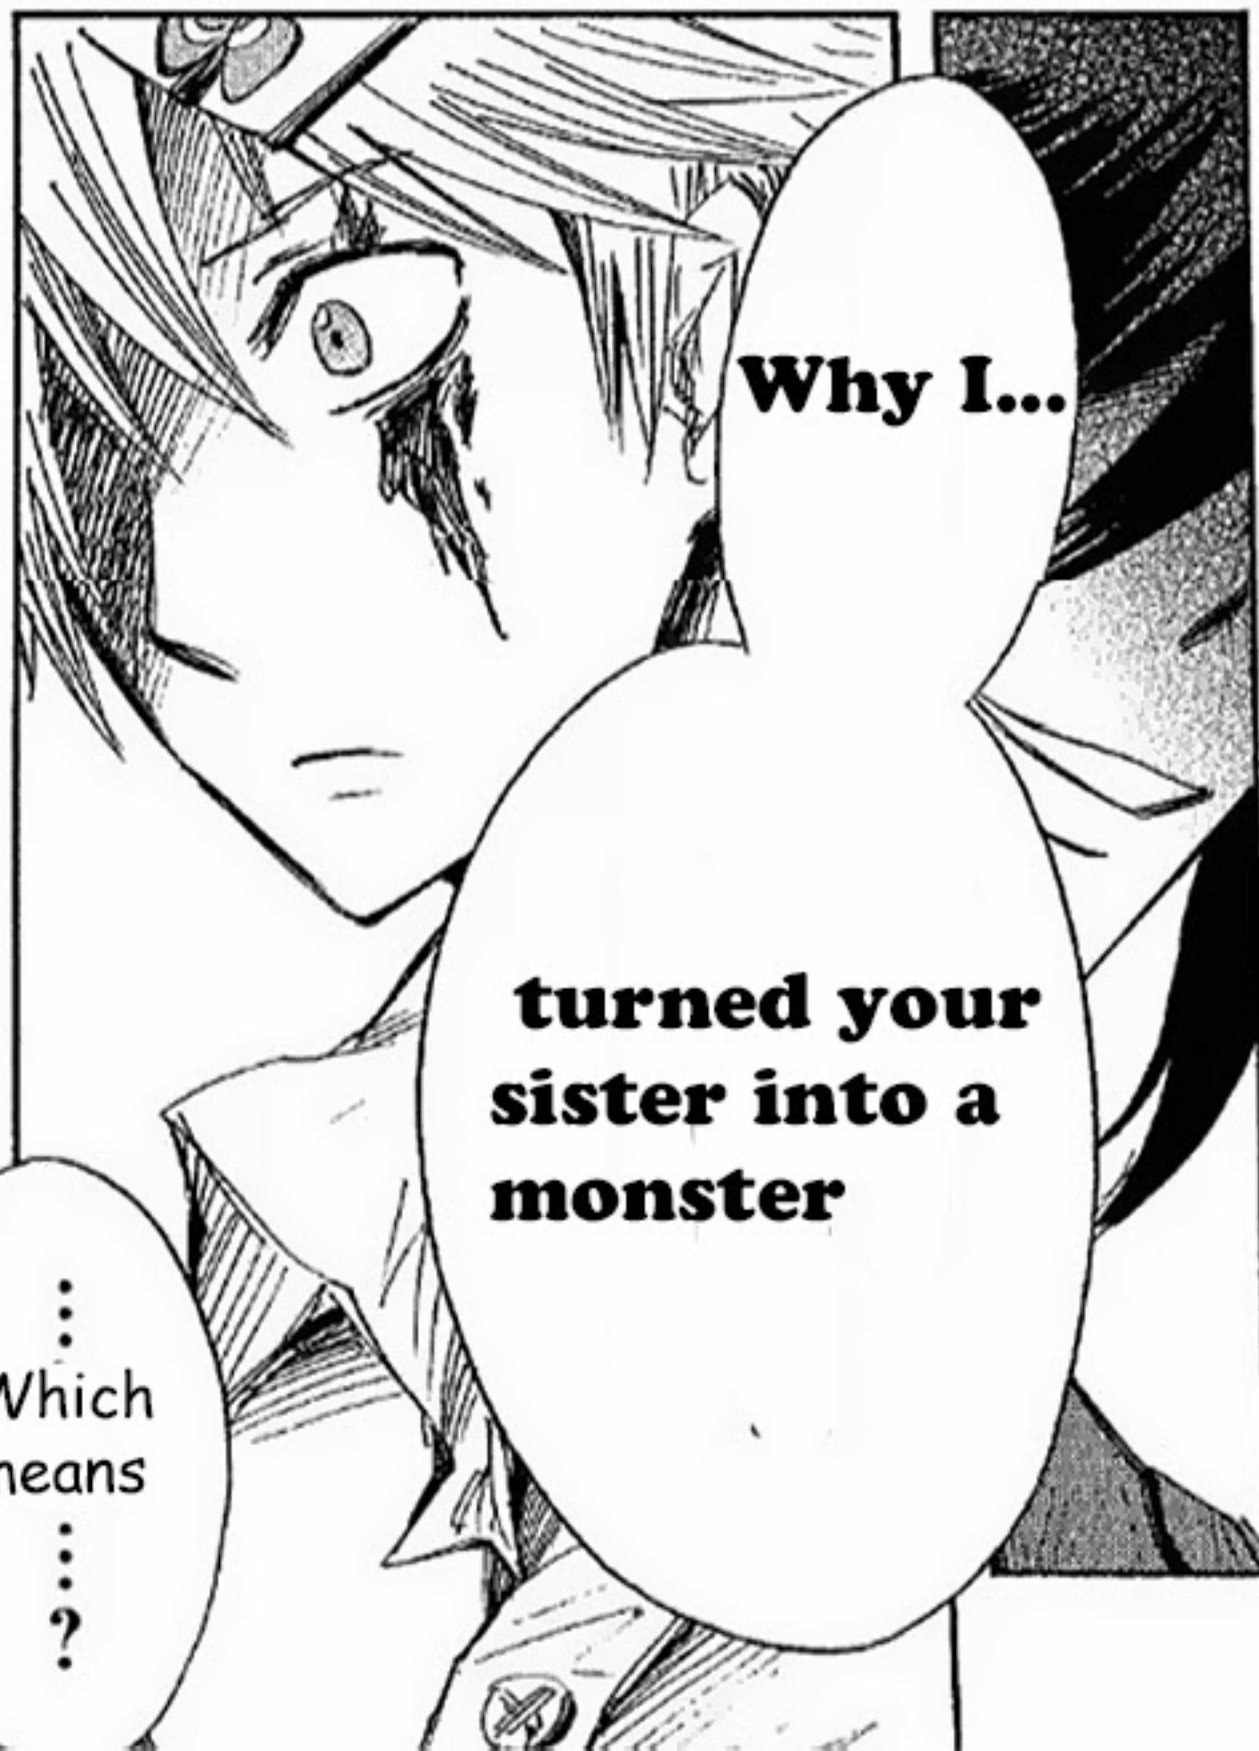

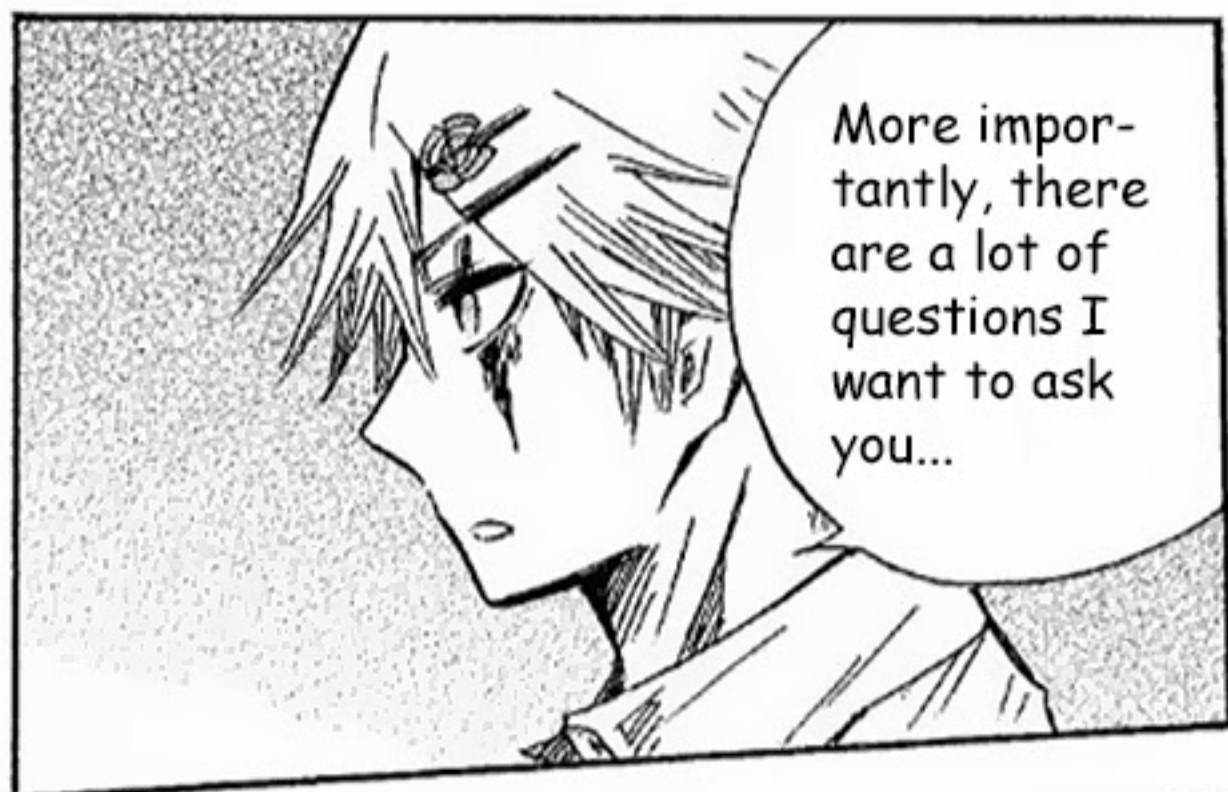

18

What did you say...?

Yume

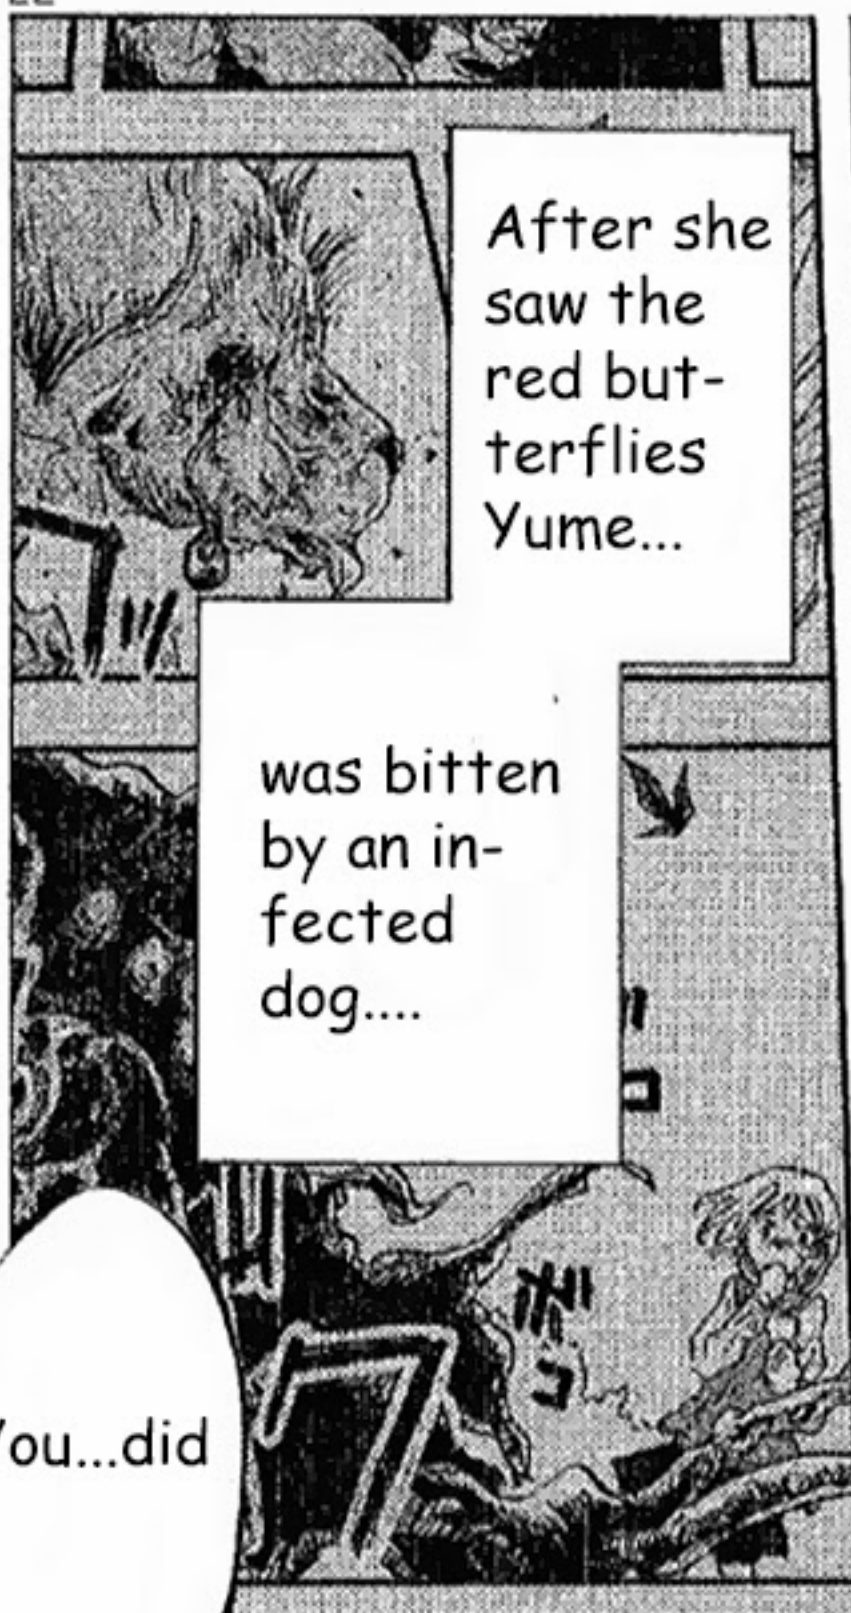

You...
just now,

Said she saw red butterflies

That day at the park

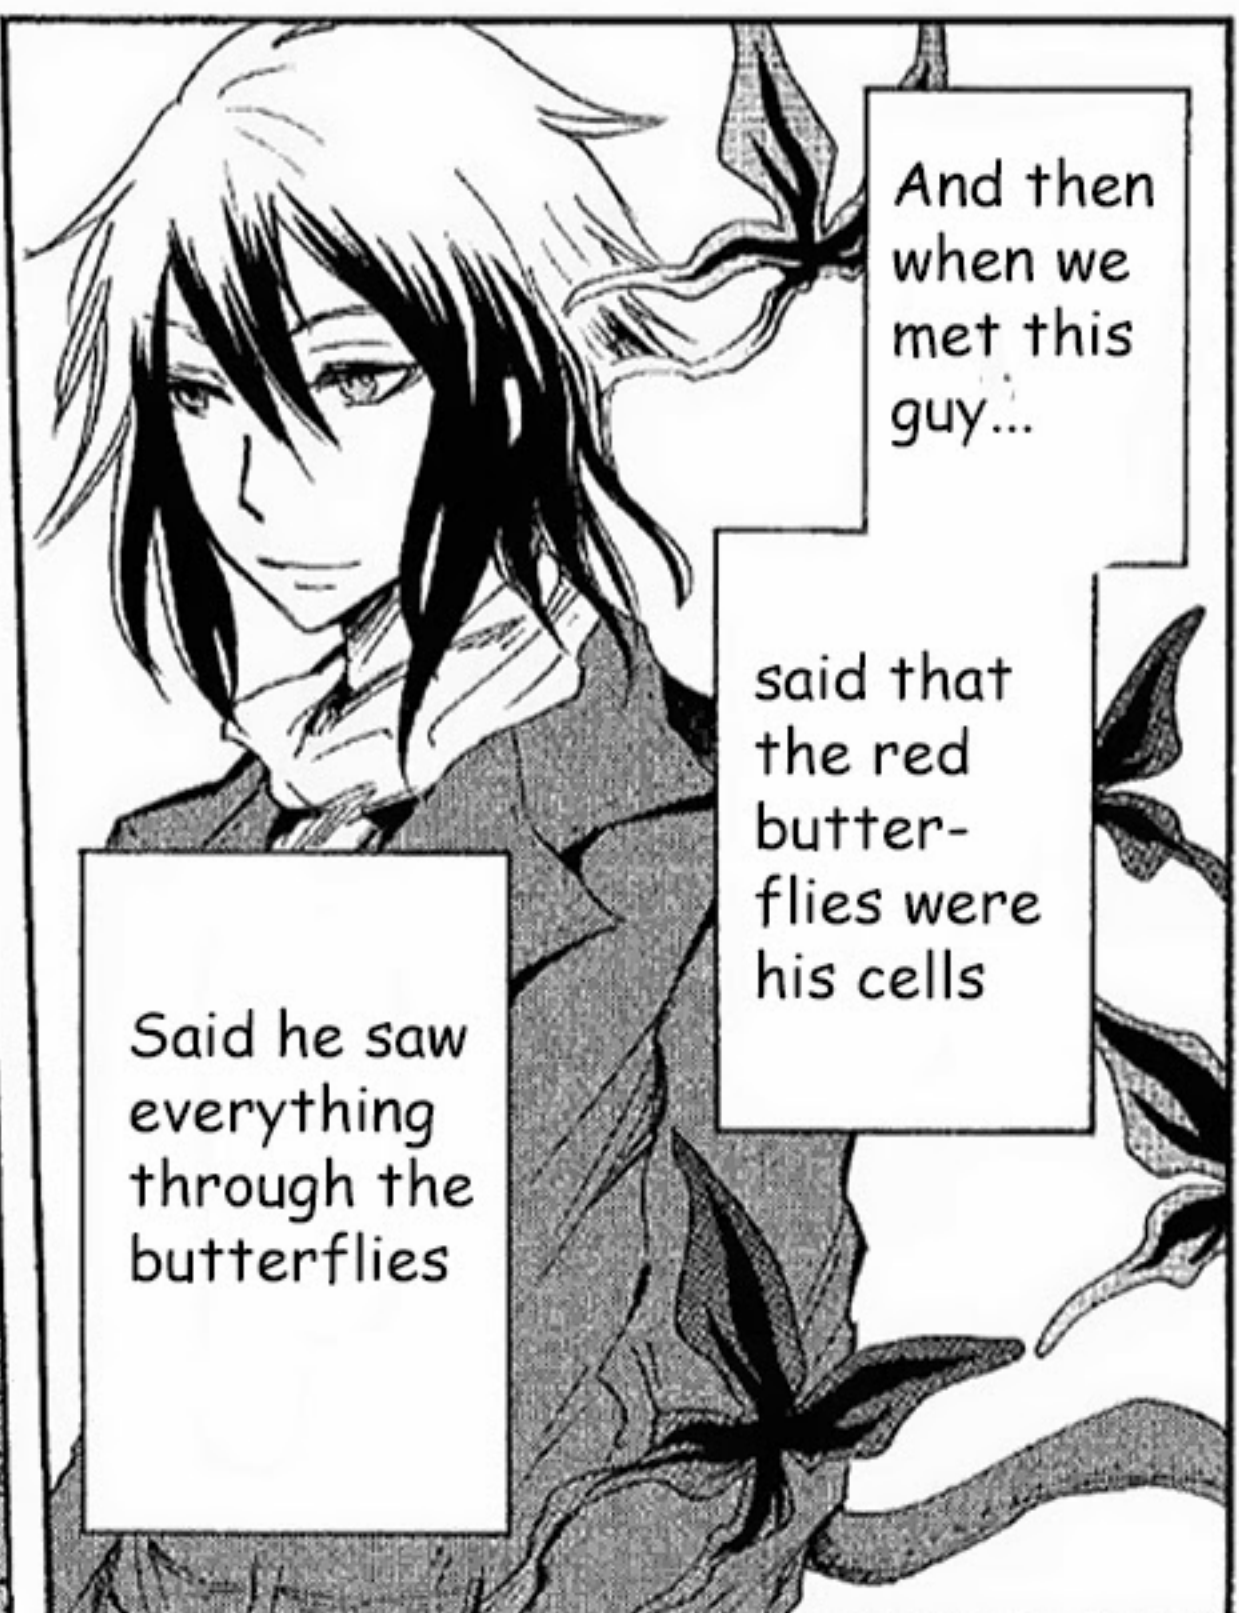

22

After she saw the red butterflies Yume...

was bitten by an infected dog....

You...did

And then when we met this guy...

said that the red butterflies were his cells

Said he saw everything through the butterflies

**I'LL
FUCK-
ING
KILL
you!!**

**You did
this to
Yume?!**

You're quick
to get fired
up at the
mention of
your sister

Ah ha ha,
sorry sorry

That's
very in-
teresting
to me

I've...

Since Yume
was born 16
years ago...

It's
always
been
just the
two of
us...

Shutup.
...

What do
you know...

You, Maria,
and the or-
ganization...

What do
you want...?

**What exactly
do you want?!**

Why
Yume...

Why did
you make
my sister a
monster?

But there are
too many things
you don't know

**I'm very
annoyed
by that**

26

To begin with,
the Pupa
virus?

Only the
others and I
know...

Why do you
think that orga-
nization is trying
to use the Pupa
virus?

It's you who
knows nothing

The you right
now who knows
nothing is pa-
thetic

And then,
there's
happiness

Then....

Do you
want to see
your
sister?

meet her and
turn her mind
back into a hu-
man's?

**Are you ready
to know the
truth?**

You can try out
the method
there...

Well, it
might be
more of a
risk

?

Even knowing
the truth, if
you still want
your sister...

I'll guide
you to her

You...

I can't
guarantee
what will
happen

Why...
to me..

But you don't
have the an-
ti-pupa med-
icine any-
more

that was sup-
posed to be the
only way...

28

Maria was
a victim of
that too...

More or less I
have sympathy
for you...

That's why,
I'll especially
tell you...

About
Maria and
about me

And...

**The
truth
about
Pupa**

It began
here, on
this island

It was 30
years
ago...

30

In the depths
of this island

the two
monsters
deeply
asleep
and....

coming to this
island by coincide-
dence...

those four..
